ABOUT

Experienced IT professional delivering digital transformation through Cloud Computing and DevOps Lifecycle strategies to create agile, durable, scalable, and cost-effective solutions. Passionate about automation's power to improve processes, eliminate waste, reduce manual effort, and free resources for growth & innovation. I believe AI augments human intelligence — it doesn't replace it. **Achieve more by doing less!**

Specialized in SDLC, IaC, GitOps, and Configuration Management Tools to automate cloud migration. Deep experience with Ansible, Terraform, Pulumi, Terragrunt, Docker, Kubernetes, AWS EKS/ECS/ECR/CodePipeline, Azure AKS/ACR/DevOps, ArgoCD, FluxCD, GitHub Actions, Jenkins, Tekton, CDK, CDKTF, Projen, Vault, Consul, OpenTelemetry, Prometheus, and Grafana.
