ABOUT / SUMMARY

Experienced IT professional with cutting-edge technical certifications from top industry providers. I have consistently delivered digital transformation and innovation by leveraging Cloud Computing and DevOps Lifecycle strategies to create agile, durable, scalable, and cost-effective solutions.

My passion lies in automation's transformative power to improve processes, eliminate waste, reduce manual effort, and free resources for growth and innovation. I believe AI plays a key role empowering companies to learn faster, innovate quickly, and achieve higher performance by augmenting human intelligence — not replacing it. Achieve more by doing less!

As a developer, I possess a wide range of programming skills including PowerShell, Bash, PowerCLI, C, C++, C#, VB.NET, Python, JavaScript, TypeScript, MSSQL, MySQL, PHP, HTML, CSS, YAML, JSON, HCL, Groovy. On the operations side, my expertise lies in Networking, Linux, Windows, VMware vSphere/vCenter, NSX-V/T, vSAN, and different cloud providers such as AWS, Azure, and GCP (Compute, Network, Storage, Database).

As a DevOps Engineer with expertise in containerization and Infrastructure as Code, I specialize in using the SDLC, IaC, GitOps, and Configuration Management Tools to automate the migration and expansion of businesses to the cloud. I have experience in Ansible, Terraform, Pulumi, Terragrunt, env0, Packer, Vagrant, Serverless, AWS CloudFormation, EB, SAM, Amplify, Docker, Kubernetes, AWS CodePipeline, ECR, ECS, EKS, Azure ACR, ACI, AKS, Azure Pipelines, Jenkins, GitHub, GitLab, BitBucket, GitHub Actions, Tekton, Spinnaker, Gitpod, Runway, JFrog, Flux, ArgoCD, CDK, CDKTF, CDK8s, Projen, Falco, KubeFlow, OpenTelemetry, FluxCD.

EXPERIENCE

Tech Lead

Virtasant | October 2023 – Present | Austin, Texas, United States
(Remote) Total at Virtasant: 3 years 6 months

- Led migration strategy from cloud provider infrastructure to private cloud platform, architecting multi-account infrastructure migration for improved resource allocation and increased IP space.
- Directed team of 4-5 SREs in managing critical CI/CD infrastructure supporting 1,000+ daily pipeline executions, establishing infrastructure-as-code standards reducing deployment time by 75% across 20+ clusters.
- Designed disaster recovery and high availability strategies across 2 regions achieving 99.95% uptime SLA, coordinating production deployments during bi-weekly maintenance windows.
- Implemented automated compliance checking and vulnerability remediation processes reducing security findings by 90%, while standardizing deployment processes across 25+ microservices cutting failures by 60%.
- Created comprehensive documentation including 30+ runbooks and 20+ operational procedures reducing MTTR by 40%, managing incident response for 15+ P1 incidents with zero SLA breaches.

DevOps Engineer

Virtasant | October 2022 – October 2023 | Austin, Texas, United States (Remote)

- Managed and optimized 30+ Kubernetes clusters for CI/CD infrastructure, performing quarterly upgrades across 11 versions (1.21 to 1.32) while implementing automated update processes for 100+ infrastructure components reducing manual time by 80%.
- Migrated container networking solutions across 10+ EKS clusters improving network performance by 30%, while upgrading CI/CD pipeline engines across 10+ environments supporting 500+ daily builds.
- Configured and maintained monitoring stack with Prometheus, AlertManager, and Grafana tracking 200+ custom metrics, implementing security compliance migrations achieving 100% PSA compliance.
- Managed bi-monthly secret rotation and credential management for 50+ service accounts using secure storage solutions while automating infrastructure deployments with IaC tools.
- Configured GitOps workflows for continuous deployment across 12 clusters enabling 20+ daily deployments, implementing cost optimization strategies achieving 35% reduction through storage and autoscaling.

DevOps Lead

Netways | February 2023 – June 2023 | Dubai, United Arab Emirates

- Led DevOps transformation initiatives for Azure Cloud infrastructure, delivering 5+ projects that reduced operational costs by 40% and improved deployment frequency by 5x.
- Built and optimized 50+ Azure DevOps pipelines and managed 20+ repositories, automating end-to-end CI/CD workflows that decreased release cycles from weekly to daily.
- Implemented Infrastructure as Code using Terraform across 5+ Azure environments with reusable modules reducing provisioning time by 70%, while standardizing Kubernetes deployments with 25+ Helm charts achieving 99.9% deployment success rate.
- Mentored and trained 5+ team members on Azure DevOps practices through bi-weekly workshops, improving team

productivity by 35% while gathering requirements from 10+ stakeholder groups achieving 95% customer satisfaction.

- Established integration strategies connecting 8+ cross-functional teams reducing inter-team dependencies by 30%, while managing Azure infrastructure supporting 30+ microservices with cost optimization strategies.

DevOps Consultant

Syntheia | October 2022 – February 2023 | Sydney, New South Wales, Australia (Remote)

- Developed and executed DevOps strategies for 3+ enterprise clients, reducing deployment cycles by 60% and improving system reliability to 99.95% uptime.
- Deployed 5+ production-ready EKS and AKS clusters across AWS and Azure supporting 10+ microservices, implementing GitOps workflows using Flux reducing manual intervention by 80%.
- Standardized deployment processes by developing 15+ Helm charts following industry best practices, reducing configuration errors by 75% while creating 30+ technical documentation guides.
- Automated multi-cloud Kubernetes cluster provisioning using Terraform, deploying 12+ clusters across AWS and Azure in under 30 minutes with reusable modules serving 3+ client projects.
- Established CI/CD pipelines integrating security scanning and compliance checks, achieving 100% automated deployments with zero critical vulnerabilities in production.

L3 DevOps Engineer

Rackspace Technology | April 2022 – October 2022 | Cairo, Egypt

- Designed and implemented cloud architecture for 10+ microservices applications on AWS, reducing infrastructure costs by 45% through optimized resource utilization.
- Automated deployment pipelines using Jenkins, GitHub Enterprise, and Ansible, decreasing release time from 4 hours to 30 minutes and enabling 50+ deployments weekly.
- Managed containerized workloads on Kubernetes and EKS clusters maintaining 100+ pods with 99.9% uptime, while building monitoring solutions using CloudWatch, Prometheus, and Grafana reducing MTTR by 65%.
- Resolved 30+ complex technical issues monthly, implementing security best practices across 15+ AWS accounts achieving SOC2 compliance.
- Migrated 12 monolithic applications to microservices architecture on EKS improving scalability by 70%, while mentoring 10+ developers through weekly knowledge-sharing sessions improving team self-sufficiency by 50%.

L2 Professional Services Delivery Engineer

Rackspace Technology | December 2021 – April 2022 | Cairo, Egypt

- Designed and delivered 25+ AWS cloud solutions for enterprise clients, reducing infrastructure deployment time from weeks to hours through automation.
- Implemented Infrastructure-as-Code using Terraform, CloudFormation, Runway, and Serverless framework, achieving 90% reduction in manual configuration errors while architecting solutions across 20+ AWS services optimizing costs by 35%.
- Deployed security and compliance frameworks using AWS IAM, Security Groups, and KMS for 3+ clients, achieving 100% compliance with industry standards.
- Built CI/CD pipelines integrating CodePipeline and CodeBuild,

- accelerating release cycles from monthly to weekly deployments.
- Migrated 4 on-premises workloads to AWS reducing operational costs by 40%, conducted knowledge transfer sessions for 10+ client engineers.

Technical Support Engineer

Dell Technologies | February 2021 – November 2021 | Cairo, Egypt

- Resolved 200+ monthly tickets for VBlock/VxBlock infrastructure with 95% first-call resolution, exceeding SLAs by 20%.
- Supported VMware (vSphere, NSX, VRealize), EMC storage (VMAX, VNX, Isilon), Cisco networking (Cisco MDS, N3K/N5K/N9K), Compute (Cisco UCS B/C-Series, Dell PowerEdge).
- Managed VPLEX clusters and RecoverPoint replication for 100+ TB data ensuring 99.9% availability across 30+ deployments.
- Maintained 98% customer satisfaction while creating 50+ knowledge base articles reducing team resolution time by 25%.

Technical Support Engineer

Vodafone Egypt | August 2020 – February 2021 | Cairo, Egypt

- Delivered 24/7 support for Telecom IN/Mediation infrastructure ensuring 99.9% uptime across 50+ production nodes.
- Administered Ericsson IN ecosystem (CCN, OCC, SDP, AIR, VS, EMM) managing hardware/software components.
- Commissioned 15+ new nodes reducing deployment time by 30%; resolved 50+ monthly issues with 85% first-call resolution.
- Executed 20+ quarterly upgrades supporting 40% traffic growth while integrating SPLUNK monitoring across 12 nodes, reducing detection time by 60%.

Full Stack Developer

Echo Egypt | May 2018 – July 2020 | Cairo, Egypt

- Developed and deployed 5+ desktop and web applications end-to-end, managing infrastructure through application layers achieving 99% customer satisfaction and reducing delivery time by 35%.
- Built enterprise solutions using C#, HTML, CSS, JavaScript, Microsoft AD, IIS, SSMS, and .NET, improving operational efficiency by 40% and processing 100K+ daily transactions.
- Engineered and integrated scalable APIs and backend services, strengthening cross-platform interoperability and supporting robust data workflows for mission-critical enterprise applications.

EDUCATION

Doctorate of Business Administration (DBA) Minor: Doctoral Research in AI & Freelance Platforms Swiss School of Business and Management — Geneva, Switzerland | June 2025 – May 2027

Developing DBA framework “From Human Freelancers to Autonomous AI Agents” assessing ROI and transformation in AI-augmented freelance platforms.

Master of Business Administration (MBA) Minor: Revolutionizing IT Infrastructure — Innovating Cloud and DevOps Solutions Through Polyglot Programming Paradigms Zigurat Innovation & Technology Business School AND Universitat de Barcelona — Barcelona, Spain | October 2023 – December 2024

Led MBA capstone designing digital transformation strategy for cloud/DevOps startup using polyglot programming and “everything as code” framework. Conducted market analysis (PESTEL, Porter’s Five Forces) with 120+ respondents.

Scholarship — AWS Practical Data Scientist Academy Ministry of Communications and Information Technology (MCIT) — Cairo, Egypt | October 2021 - March 2022

Scholarship — Datacenter Infrastructure Virtualization National Telecommunication Institute (NTI) — Cairo, Egypt | 2020

Bachelor’s Degree — Communication and Computer Engineering Cairo University — Cairo, Egypt | 2012 - 2018

LICENSES & CERTIFICATIONS

AWS

- AWS Certified Solutions Architect - Professional
- AWS Certified DevOps Engineer - Professional
- AWS Certified Solutions Architect - Associate
- AWS Certified Developer - Associate
- AWS Certified SysOps Administrator - Associate
- AWS Certified Cloud Practitioner
- AWS Certified Data Analytics - Specialty
- AWS Certified Database - Specialty
- AWS Certified Security - Specialty
- AWS Certified Machine Learning - Specialty
- AWS Certified AI Practitioner

Microsoft Azure

- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Azure AI Fundamentals
- Microsoft Certified: Azure Data Fundamentals
- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Security, Compliance, and Identity Fundamentals

Kubernetes / CNCF (Kubestronaut)

- CKA: Certified Kubernetes Administrator
- CKAD: Certified Kubernetes Application Developer
- CKS: Certified Kubernetes Security Specialist
- KCSS: Kubernetes and Cloud Native Security Associate
- KCNA: Kubernetes and Cloud Native Associate
- Argo Project Associate
- Prometheus Associate

VMware

- VMware Certified Professional - Data Center Virtualization (VCP-DCV) 2020 & 2021
- VMware Certified Professional - Network Virtualization (VCP-NV) — NSX-V & NSX-T
- VMware Certified Associate - Digital Business Transformation

HashiCorp

- HashiCorp Certified: Terraform Associate

- HashiCorp Certified: Vault Associate
- HashiCorp Certified: Consul Associate

Cisco

- Cisco Certified Network Associate (CCNA)

Dell Technologies

- Dell Certified Associate – Information Storage and Management v4.0

IBM

- Deep Learning | Deep Learning using TensorFlow | Deep Learning Essentials
- Applied Data Science with Python Level 2
- Data Visualization Using Python | Data Analysis Using Python
- Data Science Foundations Levels 1 & 2 | Data Science Tools | Data Science Methodologies
- Python for Data Science | IBM Cloud Essentials
- Containers & Kubernetes Essentials | Docker Essentials

Kaggle

- Python | Intro to Machine Learning | Intermediate Machine Learning
- Intro to Deep Learning | Data Visualization | Data Cleaning
- Feature Engineering | Computer Vision | Time Series | Intro to SQL | Pandas

AWS Partner

- SAP on AWS (Business & Technical) | Cloud Economics Accreditation
 - Sales Accreditation (Business) | Migration Ambassador Foundations
-

SKILLS

Cloud Platforms: AWS, Microsoft Azure, Google Cloud Platform (GCP), VMware vSphere/vCenter/NSX

Container Orchestration: Kubernetes, Docker, Helm, EKS, AKS, GKE, Rancher

Infrastructure as Code: Terraform, Pulumi, Terragrunt, Ansible, AWS CDK, CDKTF, CloudFormation, Projen, Packer

GitOps & CI/CD: ArgoCD, FluxCD, GitHub Actions, Jenkins, Azure DevOps Pipelines, Tekton, Spinnaker, JFrog, CircleCI

Observability & Monitoring: Prometheus, Grafana, AlertManager, OpenTelemetry, CloudWatch, ELK Stack, SPLUNK

Security: HashiCorp Vault, AWS IAM/KMS, OPA, Falco, Pod Security Admission, SOC2, GDPR, CCPA, PCI-DSS

Programming Languages: Python, TypeScript, JavaScript, Go, Bash/Shell, YAML, HCL, C#, Groovy, Java, PHP, PowerShell

Infrastructure & Networking: Linux (RHEL), Windows Server, VMware NSX-V/T, vSAN, Cisco Networking (UCS, Nexus, MDS), Dell Storage (VMAX, VNX, Isilon), Ericsson IN

Data & AI: AWS SageMaker, Kinesis, Glue, Data Lake, QuickSight, Tableau, Machine Learning, Deep Learning

VOLUNTEER EXPERIENCE & COMMUNITY

AWS Authorized Instructor

AWS AAI | June 2023 - Present

- Authorized AWS instructor delivering 5+ official training courses on cloud architecture, DevOps, and serverless computing.
- Qualified to teach Technical Essentials, Architecting, and DevOps Engineering courses through AWS Training Partner network.

Exam Writer — AWS Certification Subject Matter Expert (SME)

Amazon Web Services | April 2022 - Present

- Reviewed and validated 10+ AWS certification exam questions for Solutions Architect and DevOps Engineer paths.
- Contributed to 5 exam development workshops providing real-world scenario validations across 3 certification tracks.

Contributor — AWS Community Builder

Amazon Web Services | March 2022 - Present

- Selected for Cloud/DevOps track among 500+ global applicants.
 - Engaged 1,000+ community members sharing expertise on architecture patterns, CI/CD, and cloud migration strategies.
 - Contributed 5+ technical articles on serverless, container orchestration, and infrastructure as code.
-

INTERESTS

Cloud-native infrastructure | Kubernetes & CNCF ecosystem | AI agents and LLM integration | MCP (Model Context Protocol) development | DevOps automation and GitOps | Infrastructure as Code | Multi-tenancy and multi-cluster management | Open source contribution | Technical writing and blogging
