SUMMARY

Seasoned Tech Lead and DevOps/SRE Engineer with 6+ years of experience delivering enterprise-grade cloud-native infrastructure across AWS, Azure, and GCP. Specialized in Kubernetes orchestration (Kubestronaut — 7× CNCF certified), GitOps workflows, multi-cloud IaC, and CI/CD automation at scale. Holder of 11× AWS, 6× Azure, 4× VMware, and 3× HashiCorp certifications. MBA in Digital Transformation; DBA in AI & Freelance Platforms (in progress). Passionate about the “Everything as Code” philosophy — achieving more by doing less through intelligent automation, AI augmentation, and self-healing infrastructure.

EXPERIENCE

Tech Lead — Virtasant

October 2023 - Present | Austin, Texas, United States (Remote)

- Led migration strategy from cloud provider infrastructure to private cloud platform, architecting multi-account infrastructure migration for improved resource allocation and expanded IP space
- Directed team of 4-5 SREs managing critical CI/CD infrastructure supporting **1,000+ daily pipeline executions**, establishing IaC standards reducing deployment time by **75%** across **20+ clusters**
- Designed disaster recovery and high availability strategies across **2 regions** achieving **99.95% uptime SLA**, coordinating production deployments during bi-weekly maintenance windows
- Implemented automated compliance checking and vulnerability remediation reducing security findings by **90%**, standardizing deployment processes across **25+ microservices** cutting failures by **60%**
- Created **30+ runbooks** and **20+ operational procedures** reducing MTTR by **40%**, managing incident response for **15+ P1 incidents** with zero SLA breaches

DevOps Engineer — Virtasant

October 2022 - October 2023 | Austin, Texas, United States (Remote)

- Managed and optimized **30+ Kubernetes clusters** for CI/CD, performing quarterly upgrades across **11 versions (1.21 → 1.32)** with automated update processes reducing manual time by **80%**
- Migrated container networking solutions across **10+ EKS clusters** improving performance by **30%**, supporting **500+ daily builds**
- Configured Prometheus/AlertManager/Grafana stack tracking **200+ custom metrics**, achieving **100% PSA compliance**
- Managed secret rotation for **50+ service accounts**; configured GitOps workflows across **12 clusters** enabling **20+ daily deployments**
- Implemented cost optimization achieving **35% reduction** through storage tiering and Kubernetes autoscaling

DevOps Lead — Netways

February 2023 - June 2023 | Dubai, UAE

- Led DevOps transformation delivering **5+ projects** reducing operational costs by **40%** and improving deployment frequency by **5×**
- Built **50+ Azure DevOps pipelines** and managed **20+ repositories**, cutting release cycles from weekly to daily
- Implemented IaC with Terraform across **5+ Azure environments** reducing provisioning time by **70%**; standardized with **25+ Helm charts** achieving **99.9% deployment success rate**

- Mentored **5+ engineers** improving productivity by **35%**; achieved **95% customer satisfaction** across **10+ stakeholder groups**

DevOps Consultant — Syntheia

October 2022 - February 2023 | Sydney, Australia (Remote)

- Developed DevOps strategies for **3+ enterprise clients**, reducing deployment cycles by **60%** and improving reliability to **99.95% uptime**
- Deployed **5+ production EKS/AKS clusters** with GitOps (FluxCD) reducing manual intervention by **80%**
- Automated multi-cloud Kubernetes provisioning with Terraform — **12+ clusters** deployed in under **30 minutes**
- Achieved **100% automated deployments** with zero critical vulnerabilities in production

L3 DevOps Engineer — Rackspace Technology

April 2022 - October 2022 | Cairo, Egypt

- Designed cloud architecture for **10+ microservices** on AWS, reducing infrastructure costs by **45%**
- Automated pipelines using Jenkins + GitHub Enterprise + Ansible, cutting release time from **4 hours to 30 minutes** enabling **50+ deployments/week**
- Migrated **12 monolithic applications** to microservices on EKS improving scalability by **70%**; resolved **30+ complex issues/month** achieving **SOC2 compliance** across **15+ AWS accounts**

L2 Professional Services Delivery Engineer — Rackspace Technology

December 2021 - April 2022 | Cairo, Egypt

- Designed and delivered **25+ AWS cloud solutions**, reducing deployment time from weeks to hours
- Implemented IaC (Terraform, CloudFormation, Runway, Serverless) achieving **90% reduction** in configuration errors
- Migrated **4 on-premises workloads** to AWS reducing operational costs by **40%**; accelerated release cycles from monthly to weekly via CodePipeline/CodeBuild

Technical Support Engineer — Dell Technologies

February 2021 - November 2021 | Cairo, Egypt

- Resolved **200+ monthly tickets** for VBlock/VxBlock with **95% first-call resolution**, exceeding SLAs by **20%**
- Managed VPLEX clusters and RecoverPoint replication for **100+ TB data** ensuring **99.9% availability** across **30+ deployments**
- Maintained **98% customer satisfaction**; created **50+ knowledge base articles** reducing team resolution time by **25%**

Technical Support Engineer — Vodafone Egypt

August 2020 - February 2021 | Cairo, Egypt

- Delivered 24/7 support for Telecom IN/Mediation infrastructure ensuring **99.9% uptime** across **50+ production nodes**
- Commissioned **15+ new nodes** reducing deployment time by **30%**; resolved **50+ monthly issues** with **85% first-call resolution**
- Integrated SPLUNK monitoring across **12 nodes** reducing detection time by **60%**

Full Stack Developer — Echo Egypt

May 2018 - July 2020 | Cairo, Egypt

- Developed **5+ desktop and web applications** achieving **99% customer satisfaction** and reducing delivery time by **35%**
 - Built enterprise solutions using C#, .NET, JavaScript, HTML/CSS, Microsoft AD, IIS, SSMS — processing **100K+ daily transactions**
