ABOUT

Experienced IT professional delivering digital transformation through Cloud Computing and DevOps Lifecycle strategies to create agile, durable, scalable, and cost-effective solutions. My passion: automation's transformative power to improve processes, eliminate waste, reduce manual effort, and free resources for growth & innovation. I believe AI augments human intelligence — it doesn't replace it. **Achieve more by doing less!**

As a DevOps Engineer with expertise in containerization and Infrastructure as Code, I specialize in SDLC, IaC, GitOps, and Configuration Management Tools to automate cloud migration and expansion. Deep experience with Ansible, Terraform, Pulumi, Terragrunt, Docker, Kubernetes, AWS (EKS, ECS, ECR, CodePipeline), Azure (AKS, ACR, DevOps Pipelines), ArgoCD, FluxCD, GitHub Actions, Jenkins, Tekton, Spinnaker, CDK, CDKTF, Projen, Vault, Consul, OpenTelemetry, Prometheus, and Grafana.
